EXAMINER'S AMENDMENT

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it must be submitted no later than the payment of the issue fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Kory D. Christensen on 12/14/06

Please amend the independent claim 39.

39. (Currently amended). A computer program product comprising a machine-readable storage medium storing [including] program code for causing a machine to perform a method for organizing video streams on a display screen, the method comprising: receiving a plurality of video streams on a display screen, the method comprising: receiving a plurality of video streams on a display screen, the method comprising: receiving a plurality of video streams at a network terminal; simultaneously displaying the video streams in a plurality of respective video windows within a user interface provided by the network terminal, the user interface being presented upon the display screen; ranking within the network terminal at least a portion of the video streams according to a set of ranking criteria, wherein said ranking is to determine the relative locations within the user interface of the respective video windows; and arranging the locations of at least

a portion of the plurality of video windows within the user interface in order of the ranking of the respective video streams as determined by the ranking criteria.

Reasons for Allowance

1. Claims 1-65 will be allowed.
2. The following is an examiner's statement of reasons for allowance.

The prior art references most closely resembling the applications claimed invention is Arnott (U.S. 2002/0083462) and Liwerant et al (U.S. 2002/0056123).

Arnott disclosed the steps of receiving a plurality of video streams and simultaneously displaying the vide streams within a user interface. However Arnott did not disclose, "arranging the locations of at least a portion of the plurality of video windows within the user interface in order of the ranking of the respective video streams as determined by the ranking criteria" Claims (1,20,39,58,59,60,61).

Liwerant disclosed a process of streaming video over a computer network. However Liwerant did not disclose, "arranging the locations of at least a portion of the plurality of video windows within the user interface in order of the ranking of the respective video streams as determined by the ranking criteria" Claims (1,20,39,58,59,60,61).

In summary, the Examiner submits that there is no motivation to combine the aforementioned references; therefore, claims 1-65 have been deemed allowable over the prior art.

Art Unit: 2145

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
